Keyboard Slim USB
Extra slim USB full size keyboard

Issue February 2005

Pages 2

The new Fujitsu Siemens Computers Keyboard Slim USB attracts attention with its impressive black-silver coloured design. It looks very elegant and is the perfect input device for our sophisticated desktop PC and especially for other stylish products such as tablet PC or the notebooks.

The additional function keys provide fast access e.g. to e-mail, internet and volume functions. Furthermore the soft touch keys and the very thin dimension make working very comfortable and convenient.

This combination of design and functionality is the optimum keyboard for lifestyle orientated customers, who don't want to miss the advantages of modern technology.

Usability
- Connects easily to every PC with standard USB interface – no driver necessary
- Supports energy saving functions of current operating systems with
- More comfort with additional function keys for fast access

Ergonomics
- Elegant and extraordinary design
- Stress free and effective use through high contrast keys and ergonomic key design
- Soft touch keys in notebook key-technology

Reliability
- High quality and function stability
- Warranty, service and spare part supply according to your needs

Modern production technology
- Abrasion-proof keys through laser technology to write the keycaps
- Fully automated production line
- Highest quality coupled with very good price/performance ratio
